

HARSH RAWAT

SOFTWARE DEVELOPER | NEW DELHI, INDIA

PROFESSIONAL SKILLS

- MERN stack
- Nodejs , express , Nextjs (TS)
- Golang
- CI/CD
- SQL / noSQL DB
- BlockChain Tech
- Solidity
- AWS

PERSONAL SKILLS

- Creative spirit
- Fast learner
- Reliable and professional
- Organized
- Time management
- Team player
- Motivated

PROFILE

Experienced FullStack Developer with over 3 years of hands-on expertise in MERN, Nest.js, Next.js, and Golang. I excel in CI/CD, AWS, and have a passion for exploring the depths of blockchain technology. Crafting scalable web solutions has been my playground for over three years! Let's innovate together and make magic happen!

WORK EXPERIENCE

FULL STACK DEVELOPER

CodeUxi ,jan 2022 ~ current

- Engineered blockchain indexers, refining data parsing for dApps, augmenting performance by 68%.
- Orchestrated monitoring solutions with Prometheus and Grafana, ensuring real-time metrics surveillance.
- Spearheaded web3 product development with Solidity and RESTful/GraphQL APIs, optimizing throughput.
- Automated CI/CD pipelines using GitLab CI/CD and Jenkins, elevating code integrity.
- Architected scalable AWS infrastructure for web apps, ensuring robustness.
- Employed Nest.js for microservices, elevating backend performance by 55%.
- Engineered Golang APIs with the Echo framework, achieving a 73% enhancement in efficiency.
- Crafted responsive UIs using Next.js, leveraging ShadanUI and Material-UI for seamless interactions.
- Integrated Framer Motion for CSS animations, enhancing user experience.
- Implemented JWT-based security measures, fortifying RESTful APIs and web apps.
- Proficient in Docker for agile deployment and web server management.
- Designed and fine-tuned databases, leveraging blockchain and smart contract expertise.

MERN STACK DEVELOPER

Applore Technologies,mar 2021 ~ dec 2021

- Developed 100+ APIs with Node.js for high-frequency user consumption, resulting in an 8-10% increase in performance.
- Integrated APIs with MongoDB, establishing reference-based models for scalability and efficiency.
- Designed and implemented admin dashboard for user role monitoring and approval, integrating Google Analytics for insights and enhancing overall performance.
- Deployed solutions with AWS Beanstalk and CodePipeline for rapid deployment, contributing to an 5 % boost in performance.

EDUCATION

BACHELOR OF TECHNOLOGY (COMPUTER SCIENCE AND ENGG.)

Amity University | 2017 - 2021

CERTIFICATION

CISCO NETWORKING ACADEMY CYBERSECURITY

Cisco Networking Academy® Introduction to Cybersecurity Essentials.

MICROSOFT TECHNOLOGY ASSOCIATE JAVA

Introduction to Programming Using Java

CODING NINJA C++

Coding ninja intermediate and advanced c++
